Here, We Grow Giants.

There are schools, and then there are amazing schools who grow giants. Giants who win national history championships, excel in robotics, succeed on Broadway, and in boardrooms. Giants who learn from unique, specialized academies in science, technology, engineering, environmental conservation, and global business. Giants who will blaze new trails with rewarding careers that influence our world. Yes, our giants do not simply study history, they will make it too.

Goose Creek CISD: Here, we grow giants.

Here, We Grow Giants.

There are schools, and then there are remarkable schools who grow giants. Giants who learn in specialized academies which concentrate on global business, health science and STEM fields. Giants who learn in advanced automotive, culinary arts, manufacturing and industrial jobs. These giants learn to succeed with the help of unique partnerships with Apple, ExxonMobil, Chevron Phillips, Houston Methodist, Covestro, and many other businesses. That’s why U.S. News and World Report recognized Goose Creek as having one of the best high schools in the nation.
