

VEHICLE CQB
Course #3342

Course focus on the use of vehicles as cover and concealment, and the situational shooting positions Law Enforcement Officers can be faced with. Emphasis will be placed on dynamic shooting and weapon manipulations from these positions. Students will be instructed on ballistic principles, and their effects on various forms of cover (vehicle, glass, doors, etc.) and will apply this knowledge at the range during live fire drills and simmunition scenarios.

Drills will require students to engage threats in, around, over, and under vehicles. Students will need to manipulate handgun (and rifle) from various shooting positions, and need to be practiced in the manipulation of their weapon system(s).

Requirement for this course:

- Certified Police Officers **must have successfully completed intermediate pistol course (Semi-Auto II) and Basic Patrol Rifle/Shotgun (if bringing long gun)**
- Students must be familiar with their weapon system(s) and duty gear. Reloading, transitions, and malfunction clearing will be frequently utilized. If students choose to bring a rifle (**should be zero**), and students should be familiar how to zero a rifle.

Students will need to bring:

- Duty weapon (minimum 3 magazines)
- Duty Belt w/Holster (long sleeves and gloves recommended)
- Carbine/Shotgun platforms optional (sling & additional magazines)
- **Body Armor (which is mandatory);**
- **300 rounds** of ammunition for handgun
- **300 rounds** of ammunition for carbine

Class size is limited to 12 students.
